1. Hettich data package

This documentation gives an overview of the Hettich fittings & Hettich connector of Connecting Technology in this package.

Hettich fittings:

The table will show you the order number, the description and the connector name in imos. For the connectors with design information, it is possible to identify if processing is done or DWG's are used.

The first part includes the connectors with constructive information. Along with commercial information it includes the necessary editing groups, DWGs and attributes. There are further sorted in ascending order as per the order number.

The second part includes the connectors with general information i.e. only commercial information with further sorted in ascending order as per the order number.

2. Connectors with constructive information
