Hettich

YOUR IDEAS. OUR SOLUTIONS.

Furniture design thrives on bold ideas — and on the technology that brings them to life. As one of the world's leading manufacturers of furniture fittings, Hettich develops solutions that give you exactly this freedom: create furniture exactly as your customers imagine it, without compromises in function, comfort or aesthetics.

Our Product Highlights 2026 show how intelligent engineering expands your creative possibilities: from FurnSpin, the turning-and-swivelling system redefining furniture concepts, to flexible interior storage solutions that maximise usable space. Every innovation is developed with one aim: to give you the competitive edge required for demanding projects.

Be inspired – and take your next projects to a new level.

Turning-and-swivelling system

FurnSpin

PUT A SPIN ON TOMORROW'S FURNITURE.

Innovation happens when familiar patterns are challenged. Our unique FurnSpin turning-and-swivelling system revolutionises the world of furniture and opens up new creative freedom:

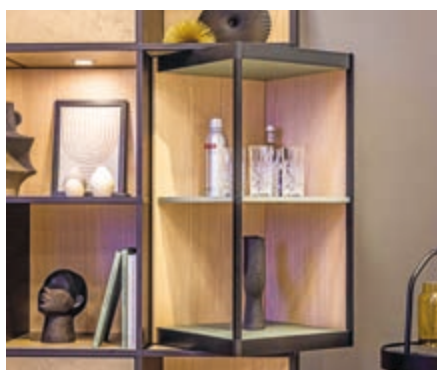

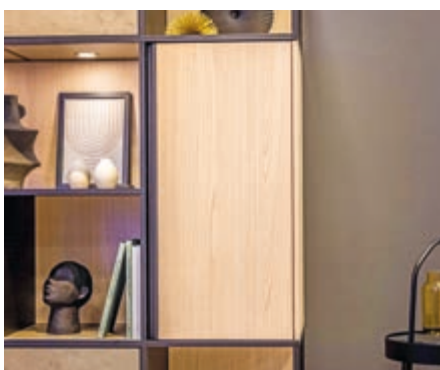

No open doors or flaps are in the way. With a smooth rotation the cabinet body moves effortlessly through 180 degrees and reveals the interior of the cabinet body in a surprising and stylish way – another turn restores the clean, closed front.

A solution that allows furniture to transform elegantly and intuitively.
