Fast assembly concealed hinge

- ▶ Sensys with integrated Silent System
- ▶ Key selling points

Sensys hinge:

Ultimate Silent System perfectly designed

Stand apart from the competition!

Outstanding furniture design doesn't stop at the hinges. The easy way to meet customer demands: with well balanced, award winning Sensys design.

Less work!

No adjustment necessary. No matter whether large or heavy, the door always closes reliably and gently, thanks to the unusually wide automatic angled plate of 35°.

Maximum customer satisfaction!

No doors slamming when it's hot, no doors left standing open when it's cold. Sensys is optimised for reliable performance over a wide temperature range of + 5°C to + 40°C.

Reduce costs!

Some commonly used door formats normally hung on 3 or more hinges can often be mounted with one hinge less, thanks to the best in class Silent System performance from Sensys.

Sliding door system / bottom running

- ▶ SlideLine M overlay version
- ▶ All the benefits at a glance

Design upgrade for furniture. SlideLine M upgrades the practical value and design of furniture. Living room units and shelf systems. Kitchen wall units and bathroom furniture. And, of course, office cabinets too. The versatile system is suitable for all common furniture constructions. Wooden, glass or aluminium framed doors weighing up to

30 kg can be installed quickly and easily. Profiles are available for several shelf thicknesses. Sliding doors running one in front of the other in one profile are also easy to produce. The Silent System is integrated on the running component and slows down door running action in closing, opening and colliding direction.

Including a feel of luxury: Silent System lets doors open and close quietly and gently. Where several doors run side by side in one profile, they can even be slowed down as they move towards each other.

Tool-less fast installation: the SlideLine M system makes easy, fast work of installing sliding doors.

Spot on: perfectly align sliding doors – with the integrated height adjustment (+/- 2 mm).

Easy and fast: profiles are simply screw mounted to the assembled carcass.

Sliding door system / bottom running

- ▶ SlideLine M / inset door position
- ▶ All the benefits at a glance

One system, countless applications. SlideLine M makes child's play of designing and assembling 2-door or 3-door cabinets. There's no limits to your creativity. Whether in the kitchen wall unit, as a clever alcove solution, in children's bedroom furniture or in the sideboard, SlideLine M impresses with its tremendous versatility. Wooden doors weighing

up to 30 kg are quietly and gently slowed down in closing, opening and colliding direction. The runner and guide profiles can be installed on all sorts of carcass and worktop materials as they can either be screwed on, stuck on or groove mounted.

Design option:

Whether in the wall unit or as clever alcove solution, SlideLine M is an integral part of the modern kitchen.

No risk of trapping: SlideLine M's inset door position and Silent System is also safe for children's little hands and feet.

Tried and tested system:

use of the standard SlideLine M fitting sets.

Installation options:

The runner and guide profiles can either be screwed on, stuck on or groove mounted.

Folding door system

- ▶ WingLine 230 / Attached to the side
- ▶ All the benefits at a glance

For mammoth tasks.

WingLine 230 is the giant among folding door systems: areas of over 6 m² are opened up in a single movement. Perfect for large cabinets, e.g. in the office or utility room. As an agile room divider. Or for a walk in cabinet in living areas that can be opened and closed with a turn of the hand. WingLine 230 has exactly what it takes, supporting doors with a leaf weight of 20 to 25 kg. Extremely sturdy: side mounting with Sensys 8645i fast assembly concealed hinge. WingLine 230 requires neither centre panels nor any bottom guide.

Folding door system

- ▶ WingLine L / Attached to the side
- ▶ All the benefits at a glance

Experiencing folding doors in a new way.

WingLine L lets you produce folding sliding doors in a completely new dimension of convenience. The revolutionary Push / Pull to move opening mechanism provides access to everything inside the cabinet with just one movement of the hand. An impressive panorama effect! Further highlights:

Panorama convenience:
access to 6m² of cabinet content, leaving everything in perfect view.

For easy and gentle opening:
Push / Pull to move module first class practical convenience.

Optimum use of space:
minimal door protrusion, with door reliably held in place while open.

Purist and convenient:
no distracting profile on the bottom panel.

Handleless perfection:
The door set opens all the way with just one push - from the Push to move module.

Impresses everywhere:
WingLine L is suitable for all commonly used door wing formats.

Impressive running performance:
as smooth as never before and virtually silent.

Easy and cost effective:
intelligent installation accessories for efficient one person installation.

As individual as you – AvanTech YOU

The new AvanTech YOU drawer system scores from design diversity and creative flexibility, from concealed working parts and perfect performance as well as from an efficient product concept geared to the customer.

Design distinctive drawers: the AvanTech YOU drawer is distinguished by immaculate beauty from its slimline and sleek 13 mm drawer side profile. And by the ability to turn personal ideas into reality every time.

Get a variety of clever functions: one drawer, two runners and numerous user friendly functions. Flexibly combinable with each other by using one and the same drilling pattern.

Efficient and cost effective production: the comprehensive platform concept and perfect product adjustments to production and assembly processes guarantee cost effectiveness and efficient work flows while at the same time providing the basis for a broad product lineup.

Design diversity and creative flexibility: different shapes, colours and materials consistently continue furniture design on the inside too.

Many different options for customisation: creative design flexibility in every detail. Attractive highlights are added with design profile and DesignCapes.

Precision designed furniture: AvanTech YOU competently combines technology, functionality and performance to suit any preference.

InnoTech Atira double walled drawer system

Striking, versatile, flexible – the InnoTech Atira drawer system impresses the moment you set eyes on it. Sharp contours, a choice of colours and diverse side elements produce plenty of creative potential. Added to this are

many different interior organisation solutions. All this on the basis of just one platform: no other drawer system provides this level of individuality.

Outstanding:
clear cut styling meets tried and proven technology. InnoTech Atira comes with clean cut contours full of character and excels on performance.

One for all:
thanks to the Hettich platform concept, all design solutions are based on a single drawer side profile. This also makes upgrading incredibly easy.

Perfect combination from any viewing angle:
all components are colour coordinated.

Striking lines on the outside, structured organisation inside:
A host of practical details and functions make full use of storage space. And let you see where everything is when you look into the drawer.

Lasting top performance and ultimate convenience: The Quadro principle

Integrated features for a feel of luxury:

- Silent System for gentle closing performance or
- Push to open opening system for purist furniture design

Concealed runner profiles for discerning furniture design

Special Quadro profile geometry for good tracking and stability

No maintenance steel ball bearings for lasting user convenience

High precision runners guarantee balanced, smooth gliding action

Low installed height for optimum use of storage space

Even heavily laden, Quadro provides easy action and smoothly gliding performance. Forces acting on it are taken up on all sides by the special profile geometry – making sure that Quadro provides maximum vertical and horizontal stability.

Technical information/legal notice

General technical conditions

The fitting instructions, screw fixing points and load capacity information provided in this price list assume proper attachment using screws specified by Hettich to a chipboard panel providing a screw pull out resistance of at least 1,000 N in accordance with EN 320.

Hettich accepts no responsibility for the load capacity of furniture and its components if materials or fastening methods are used other than those stated; the furniture manufacturer must verify load capacity.

The fitting situations shown in this price list are only intended to illustrate the possible options.

The furniture manufacturer is responsible for ensuring that furniture is designed in compliance with standards, in particular with regard to meeting the requirements on safety.

We will be pleased to provide any further information you may require.

General Terms of Sale and Delivery

All products and services will be provided exclusively on the basis of our General Terms of Sale and Delivery published on our website at www.hettich-agb.com.
