Technik für Möbel

Kitchen Collection 04

Technik für Möbel

Kitchen
Collection

The company's origins date back to 1888, when Karl Hettich began making the new clock component he had invented. By 1930, his descendants had diversified into furniture fittings, setting up production in East Westphalia – a center of the German furniture industry. Today, Hettich, still family owned, has become an industry leader with a worldwide reputation. We're one of the world's largest manufacturers of high-quality furniture fittings, with presence in more than 100 countries.

The company's success has been built on four enduring values: quality, innovation, close cooperation with customers and absolute reliability. We work to inspire our customers with our ideas and our passion.

After the remarkable success of kitchen design collections year after year, we are now proud to present our new kitchen design collection.

This series will provide you with a wealth of new ideas. For this collection we have taken inspiration from nature and used " BRIGHT & COOL ", COLORS that bring life to your home interiors, so this collection not only gives insight of our products and illustrates practical applications but also helps you to create beautiful interiors of kitchen. It will help you to plan, design and realize your dreams.

In keeping with changing lifestyles, the kitchen too has undergone transformation; it is no longer just a place to cook. It is the style statement of the home-maker and is meant to offer convenience, ease and efficiency to the user besides being hi-tech and aesthetically appealing. Hettich helps kitchen manufacturers make elegant, convenient and ergonomically designed user friendly kitchens.

We operate throughout the world. This means we're within reach wherever you need us. The consistently high quality of our products helps us to provide delight to our customers. We guarantee our products and services with our name and with all that it stands for.

Yours sincerely,
Team Hettich India

intelligent kitchens

Intelligent Kitchens :
How to plan a kitchen that's a pleasure to use

The Intelligent Kitchens concept divides the kitchen into five functional areas:

- 1) Food Storage
- 2) Food Preparation
- 3) Pots & Pan
- 4) Cleaning Agents & Waste
- 5) China & Cutlery

A kitchen that is planned to this concept only offers you advantages: short routes, ergonomic sequences and cleverly designed internal fittings.

Color Palette: BRIGHT

"You can cut all the flowers but you cannot keep Spring from coming."
- Pablo Neruda (1904-1973), Poet, Chile

1. InnoTech Preassembled XXL drawer:

- Efficient use of space
- Plinth lifting mechanism automatically raises the front panel when drawer is opened & lowered it again when closed

2. SlideLine 66:

- Ideal for book cases and shelf systems
- Overlay configuration
- One track bottom running for aluminium, wooden & glass doors

3. InnoTech powder-coated steel, silver- pot & pan drawer with railing:

- Quick insertion & removal of the drawer
- Perfect drawer action with QUADRO partial or full extension: optionally with Silent System

Kitchen Layout : 01

PLAN

ELEVATION 'B'

ELEVATION 'A'

1. Cargo IQ 200:
- Base unit front panel permits a large variety of possibilities of combination
 - Optional use of available space with compensating and diagonal base units

SAH 130: For mounting carcass

2. OrgaWing:
- The moving compartments automatically swing out to the side when the pot & pan drawer is opened. They gently glide back to the home position on closing the drawer.
